

*(formerly known as Libbey Owens Ford Co. or LOF)*

Presents

## ***Glass & Energy***

A Lunch and Learn seminar

Learn how we can....

**Reduce** glass waste by design with manufacturing in mind

**Reuse** samples

**Recycle** glass in the manufacturing process

...while fulfilling 1 CEU for AIA/CSI

*Or self submit for credit in other organizations*

### Topics will include:

Defining and how to use U-value and SGHC

Explaining Low E and how it works

How to choose a tinted and/or Low-E glass to lower energy consumption

How to minimize the cost of an insulated glass unit with Eclipse Advantage glass

How Activ self-cleaning glass and Optiview Anti-reflective glass work

Introducing specialty glass products

Products that count toward LEED credits

*Because we are a green company, we endeavor to reduce waste by offering plattered meals instead of individual box lunches when possible. Further, we no longer support bottled waters for the same reason therefore please B.Y.O.Beverage (hopefully something in a cup!)*

Thank you for supporting the sustainability mission.

**Regional Territory Manager**
